BTEC National Diploma in Creative Media Practice (Games Design & Development)

Campus: Rotherham College

Code: R04SP02

Level: 3

About This Course

This course will prepare you for a career in a range of industries including games, visual effects, architectural visualization, animation and interactive media. You will learn a range of skills and in-depth knowledge of a range of disciplines relating to games, animation, VFX and interactive media.

You will undertake a variety of units which can be topped up further with a second year to ensure you are fully prepared for employment in a related role or progression onto Higher Education.

This course will help you to understand how digital creative industries work, the different jobs available, as well as the personal, academic and creative skills you will need to be successful.

The UK is home to over 2,000 games companies, employing approximately 50,000 people. With the global software market expected to grow to £143.25 billion by the end of 2021, this is a fantastic time to choose a career in the games industry.

What Will I Study?

Learners taking this qualification will study two mandatory learning and teaching modules:

1. Exploring and Developing Creative Media Skills
2. Advanced Creative Practice

Throughout this course students will study:

- Software skills using 3D Maya and Unreal Engine, the game engine used to create the most popular games in the world right now
- Adobe creative suite to enhance your skills in using Photoshop, Premier Pro and Audition
- Cognitive and problem-solving skills: using critical thinking, approaching non-routine problems applying expert and creative solutions, using systems and technology
- Interpersonal skills: communicating, working collaboratively, negotiating and influencing, self-presentation

Why Study Here?

You will develop other skills including managing projects from start to completion with your peers, participating in live projects and entering local and countrywide competitions. You will have the opportunity to work for a local educational games company to build your pitching skills and portfolio. Our courses are taught by industry professionals who will guide you in becoming a games and animation design/developer within cutting-edge facilities that replicate those in industry.

You'll use state-of-the-art equipment which includes:

- High spec gaming computers
- Latest gaming consoles and VR equipment
- Access to industry standard software such as Unreal Engine 4, Autodesk Maya and Adobe Creative Cloud

Your work will be entered into national and global competitions and each year our students participate in field trips which have included visits to Science Museum, Gaming Festivals (EGX, Rezzed) and London Residential. If you have not yet achieved level 4 or above in English and maths you will be given the opportunity to continue to study these subjects alongside your course.

Entry Requirements

- At least five GCSEs at grade 4/5 (to include English and Maths), or a BTEC Level 2 in an appropriate subject at Merit or Distinction
- Other relevant experience and qualifications will be considered on an individual basis
- A good reference
