

Construction

T Level Transition: Foundation in Brickwork

Campus: Rotherham College

Code: R07TP01

Level: 2

About This Course

This programme will provide students with the knowledge, skills and behaviours required to progress on to our T Level pathways within On-Site Construction (Bricklaying and Joinery) or Building Services Engineering (Electrical and Plumbing).

Students will develop skills for work readiness, access work related activity and gain an insight and core skills which relate directly to the construction trade in which they intend to specialise.

Students will complete employer set projects that link directly to industry and support each student to meet the national technical outcomes for their chosen sector.

Students will benefit from our links to construction industry specialists and gain an in depth understanding of modern construction techniques and Green Technology.

What Will I Study?

- Develop ideas to meet planning requirements for sustainable construction projects

- Design sustainable construction projects
- Produce sustainable construction project outputs
- Develop skills within your chosen construction trade
- Prepare for on-site working
- Gain an in depth understanding of the Construction Industry

Why Study Here?

- Study in our brand new, state of the art construction facility
- Opportunities to link up with large employers in the local area who will support you to develop your skills
- Highly qualified industry specialist staff who will support you to achieve your goals

Entry Requirements

- Grade two in English and Maths
- A keen interest in the construction sector
- A positive attitude towards learning and progression
