## Foundation Degree in Graphic Design

**Campus:** University Centre Rotherham

**Code:** U01HE02

**Type:** Full Time | Part Time

This course will provide you with an opportunity for you to fulfil your creative ambitions and develop your understanding of current design practice.

You will gain an overview of the whole design and production process. It will give you the knowledge, understanding and skills to enter a range of careers in the graphic arts industries.

Work-based learning is at the heart of this course and is embedded into the modules.

### Why Study With Us?

The teaching team have a range of experience from practice within the industry with local, national and international networks. They can offer real-world advice and guidance to help develop your practice.

You will be based in our professional design studio space which provides a stimulating learning environment, all fully equipped with the latest Mac/Adobe software.

Live projects are set by local and national designers and creatives including Eleven Design/Human Studios/Wentworth Woodhouse/Grimm & Co amongst many others. Students are offered placements to gain insight into the industry and to develop their professional practice.

You will have access to the lecture programme at Sheffield Hallam University where you will be able to see professional graphic designers and creatives and have access to their learning resources.

There's also the opportunity for field trips to local and international venues accompanied by a yearly residential to places such as Paris, Rome, Barcelona, New York and Berlin.

### Modules Covered

Year 1

## Design Techniques and Processes –

The aim of this unit is to introduce you to the different types of processes used within the graphic design industry. This ranges from illustration, printmaking, digital processes, typography, etc. Here you will develop a body of experimental work through tutor-led workshops.

## Graphic Image Making and Communication –

The aim of the unit is to develop your knowledge and skills using graphic imagery in a variety of situations. You will learn skills in both traditional and digital media to develop your creative graphic image-making skills and techniques. Here you will develop a body of experimental work through tutor-led workshops.

## Year 2

### Work-based Design Projects –

This is an opportunity for you to develop your professional practice by engaging with a range of institutions, local industry, and commercial partners. Students are also encouraged to enter competitions such as D&AD, New Blood Student Awards to enhance their professional practice and further develop a creative, professional portfolio of work.

### Specialist Creative Response –

Explore and study an area of interest that you have studied. This will be about a chosen specialist area such as Illustration, UX/UI, Typography, Branding etc. You will then provide a written project proposal on the said research topic and produce an outcome of your choosing.
